Technology Transfer Workflow

HBS-TT-2026-063 | 29 October 2026 | Planning draft

Project: ABX-101 | Client: Argen Biopharma

Mirion Biologics is a potential receiving site; designation remains unconfirmed.

01 Review and decision flow

If quality review finds a missing item, return the package for rework.

After client review and site designation, the team may prepare transfer.

This diagram does not establish site designation or transfer approval.

Technology Transfer Responsibilities

HBS-TT-2026-063 | Roles and approval status

02 Responsibility matrix
